PINE HILL.

G. H. Reynolds died on the 17th of May and was laid to rest on the 18th, in the Pine Hill cemetery. He leaves a wife and several children and a host of friends to mourn his death.—On the 18th, Mrs. Smothers died and was laid to rest on the 19th, in the Griffin cemetery. She leaves a son and a host of friends to mourn her death.—Also on the 19th there was a burying in the Pine Hill cemetery, a son of Charley Thomason's wife. Brother Bell conducted the services at the school house.

Mr. Editor it looks like that Pine Hill will soon come to the front after being dead so long. The work has begun in earnest. There are quite a number of men at work opening the coal mines and making cross ties for the company, and there are 8 or 10 carpenters here to go to work on houses for the laborers and we understand that the company wants 40 or 50 men at once to work on the railroad track and other work. Mr. Hutchcraft is here and several other gentlemen who belong to the company or represents the company. We learn when they get the plant in operation it will give work for 500 to 800 men. Then that will give us a town of from 4000 to 6000 population. Land is going up every day.—Uncle George Doan sold A. J. Pike a site for the erection of a store house a few days ago. Have not learned the price he paid.—Sam Reynolds has some lots in front of the Baptist church and has been offered a fancy price for them by several parties.—Wm. Hansel has been offered a nice price for his property.—Sam Reynolds is building a nice 3 room cottage on the hill near Wm. Hansel's store. W. R. Thomas and Wm. Mardis are doing the carpenter work.—We understand that A. J. Pike will commence his store house in a few days. He has the lumber

already sawed at Tom Payne's mill.—Tom Payne will move his mill on the company's land at once to cut lumber for them.—It is to be hoped that in a short time we can hear several whistles around Pine Hill.—As Mr. Sparks writes in last week's paper, we hope to see a hotel in Pine Hill as well as Mt. Vernon. We have four stores now in Pine Hill and will soon have another one and we expect the company will build a large commissary soon. Then we will expect to keep all the business in Pine Hill that we can get. Then we can compete with our sister town, Mt. Vernon. Whoop up Pine Hill and help to push the good work on. It will prove a blessing to the county.—Mrs. John Sears has come from Corbin to spend the summer with her sister, Mrs. Mary Hansel in Pine Hill.

Charley Baker and wife and baby are visiting his parents at Pine Hill this week.—Buck Sowder is here from Lebanon Jct. to see his father-in-law. His wife is with him.—The Holy Rollers had one more time at the school house Saturday night and Sunday. Preachers Davis, Blackburn and Charley Scott preached and all hands shouted and danced the Holy dance. It was a jubilee with them.

ESCAPES AN AWFUL FATE

A thousand tongues could not express the gratitude of Mrs. J. E. Cox of Joliet, Ill., for her wonderful deliverance from an awful fate. "Typhoid pneumonia had left me with a dreadful cough, she writes. "Sometimes I had such awful coughing spells I thought I would die. I could get no help from doctor's treatment or other medicines till I used Dr. King's New Discovery. But I owe my life to this wonderful remedy for scarcely cough at all now." Quies and safe, it's the most reliable of all throat and lung medicines. Every bottle guaranteed, 50¢ and \$1.00. Trial bottle free at Chas. C. Davis'.

Messrs George Martin, W. A. Rice, Bernard Hagan and others attended the conclave at Paris Ky., Wednesday and Thursday. —S. E. Pennington is repairing the Eight Gable Restaurant.—J. M. Foure is building a new residence on Main St. and is painting his house himself. This may seem strange that a blind man could paint but he is doing a splendid job.—W. M. Preston has returned from Louisville.—J. A. Oliver was in Mt. Vernon Tuesday.—We see in the columns of the SIGNAL a letter from Mr. W. J. Sparks and we note that he asked that a pike be built from Mt. Vernon to Pine Hill. This is all right but he stopped five miles too soon and we had a talk with Judge Lewis and he said it was certain that a pike would be built to Pine Hill in the near future and eventually to Livingston. We are not so much interested in the pike as we are in bridge. Give us a bridge across the river and we will not name the pike. So you will find us camping on your trail until this is done.—Miss Nettie Rice has returned from Stanford.

J. P. E. Drummonds is in Knoxville this week.—Mrs. J. B. Hayes received a message Tuesday day that one of Ed Quinn's children was very sick and she left for Paris on the noon train.—G. D. Lemonds.—Mrs. W. T. Amyx and little son, Clifford, were visiting in Mt. Vernon Thursday.—There were services at the Baptist Church Saturday and Sunday conducted by the Rev. Duke.

Thomas Mullins and Miss Julia Durham went to Jellico Friday night and were married. We havent learned whether there were any parental objections or whether they wanted a pleasure trip. Miss Julia is the beautiful daughter of Newt Durham and Tom is the son of Mrs. Nathan McWhorter. May roses bedeck their path.—John Mullins was in Stanford Saturday. He is all smiles now. We imagine he saw his best girl while there.—Mrs. A. A. Albright and little son of Lebanon Junction has been visiting Mrs. J. T. Omary for a few days.—R. S. Martin, of Brodhead, was here Tuesday. PANAMA-PACIFIC TO

BE THE GREATEST OF ALL EXPOSITIONS

ST. FRANCIS MEMORIAL TOWER.

The contributions of China and Japan toward the exposition in magnificence and variety will surpass anything ever seen outside of the Orient and even in the far east itself. A con-

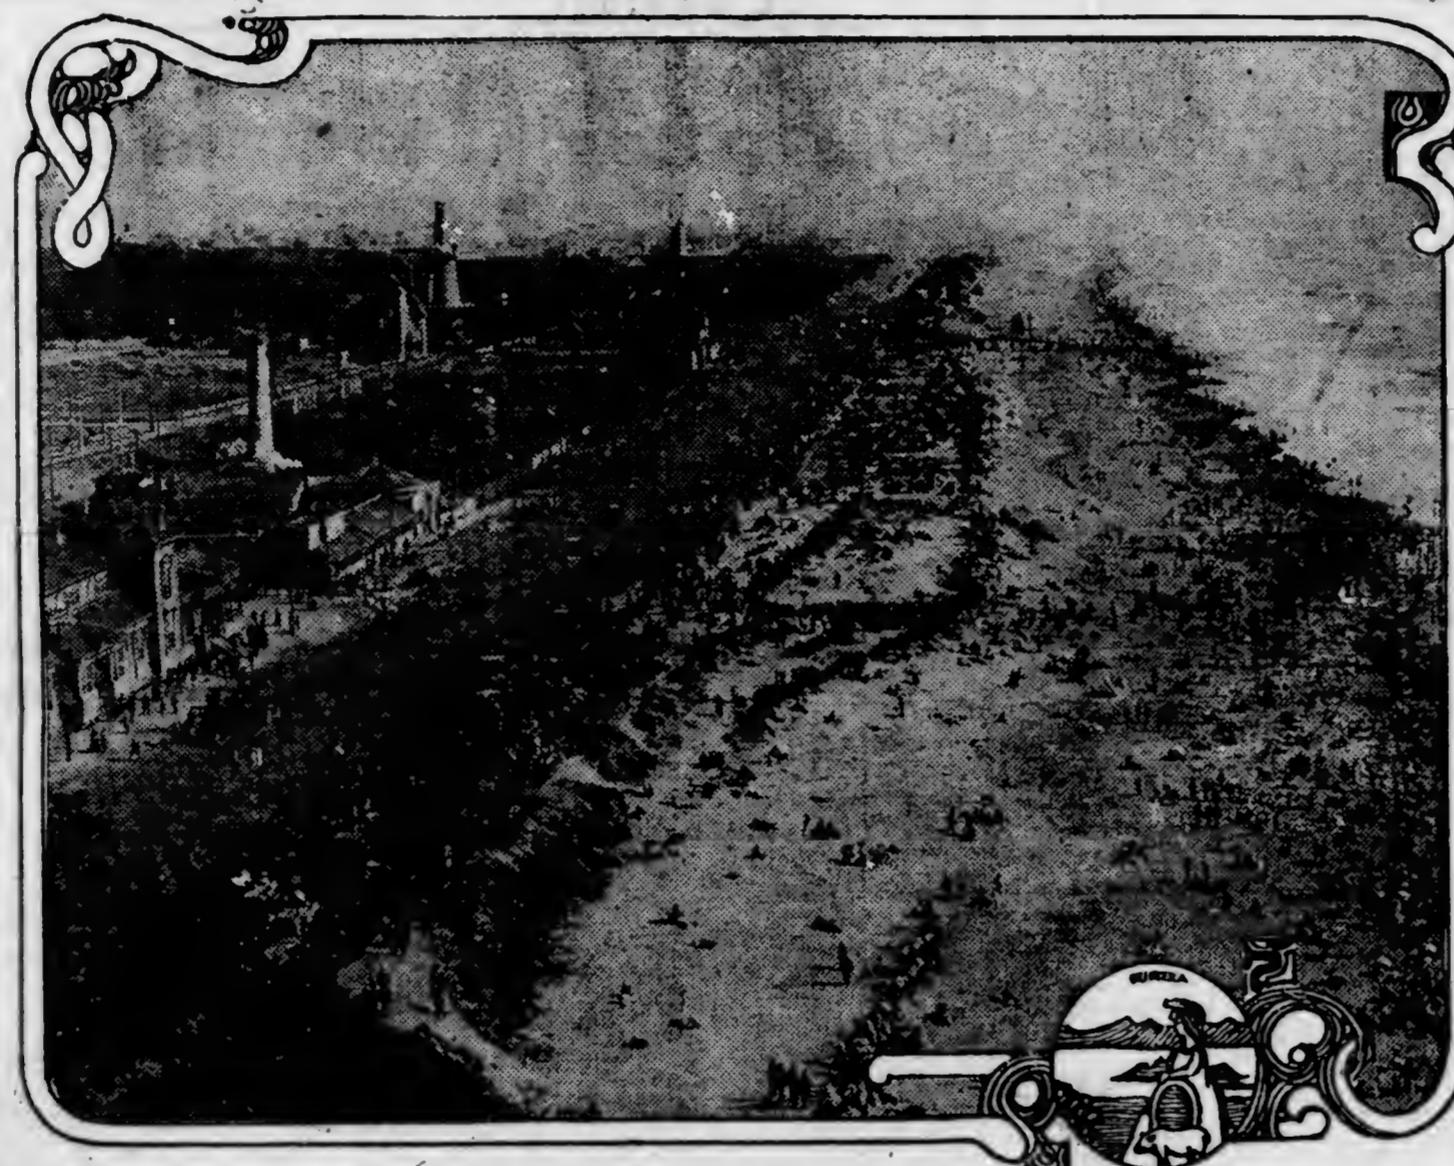

Yellowstone National park, Great Salt Lake, Puget sound, the inland trip to Alaska, the government's huge reclamation projects in sixteen western states, the Columbia river region, the redwood forests of California, the firs of Oregon, the big trees on the approach to the Yosemite, Arizona and New Mexico, youngest of the states: Nevada and some of the greatest mining camps in the world. Perhaps most interesting of all will be the opportunity for a trip through the Panama canal either coming or going.

The reconstruction of San Francisco is one of the greatest miracles within the history of American municipalities. Five hundred and eight city blocks, embracing the principal business and residential portions of the city, were wiped from the earth in 1906. The streets were covered in some places with debris forty feet deep, yet today a stranger to the city would never know from its appearance that a fire had occurred.

The loss through the fire is estimated by insurance underwriters at \$400,000,000. To reconstruct San Francisco called for greater wealth than was destroyed by the fire and far exceeded the cost of building the Panama canal. Since the fire \$242,000,000 has been expended upon new buildings alone.

Today San Francisco is the newest city in the world. Its buildings represent the latest type of modern reinforced concrete structures. It has more than 1,300 hotels and apartment houses, with accommodations to suit all persons.

In preparing for the Panama-Pacific international exposition hundreds of its emissaries are visiting all the regions of the world. Fourteen governors of western states on a 4,000 mile trip through the east on a special train recently called attention to the exposition and became better acquainted with their brothers of the eastern states.

PACIFIC OCEAN BEACH FRONTING THE EXPOSITION SITE IN GOLDEN GATE PARK.

dry goods merchant placed a great sign, "Panama-Pacific International Exposition, San Francisco, 1913," and this became the battlecry in the fight to build a new city.

Of more than \$20,000,000 now appropriated by California \$7,000,000 has been raised by popular subscriptions, \$4,000,000 is assured through a special act of the legislature permitting the counties to tax themselves for exposition purposes; \$5,000,000 was appropriated by the state of California, and San Francisco has voted a bond issue of \$5,000,000. This is the largest sum that has ever been raised for a world's exposition at an initial stage. But it is only a starter.

One of the directors of the exposition is now in Japan. It is said that his master, the Emperor Mutsuhito will donate the use of the imperial art collection to the exposition. The board of lady managers, of which Mrs. Phoebe Hearst is honorary president, is independently taking up those phases of the exposition that belong particularly to woman's domain.

The setting is being prepared. With impressive exposition structures rising from San Francisco bay, with city and wooded slopes as a background and in the foreground a vast fleet of battleships of the world, the sight will be one of the magnificent spectacles of history.

Mr. Carter and daughter, of Lebanon Junction are visiting relatives here this week.—Uncle Geo Pope improves slowly.—Mrs. L. H. Davis is with relatives in Berea this week.—John Fields and a party of fishermen from Maywood arrived here Saturday and went up the river for a weeks stay.—We had the pleasure on last Saturday of meeting our old friend Ike Bowman, father of County Court Clerk, S. F. Bowman, and if there was a jolly fellow it is Ike, no man can wear a long face and be in his company. He related his life from infancy up to the present time, told of his longing to own a farm in the blue grass and his experience while there and his desire to get back to Jackson.

Eld. A. C. Giffith will preach at Watts Chapel Church house the 2nd Saturday night, Sunday and Sunday night in June. The three subjects will be the seven headed ten horned beast of Revelation.

If any one thinks there is not something doing at Pine Hill, just let him go down and see. Forty three men went to work, there Tuesday, and the force will soon be increased to a hundred or more.

There were forty-one applicants entered the County examination last Friday and Saturday. Fifteen made first class, sixteen second class, two third class and eight failed outright.

Our people should cultivate strawberries. A big number of dollars are sent out of county every season for them. This money could be retained here. The SIGNAL has spoken of the matter time and again; but few seem to have taken advantage of the opportunity to raise this crop which is ready cash.

A. Pennington, marshal at Livingston, is making the lawbreakers lead a hard life. He pulls everything that staggers upon the streets and puts them thru a course of sprouts that tends to discourage any desire or inclination toward wobbling within town limits. If anyone in Livingston wishes to imbibe to the wobbling limit he must do so at home and avoid the streets for the marshal will surely get them "if they don't look out".

In view of the coming exhibition of the BROADHEAD FAIR the management will make a special effort to get Special Trains each day during the FAIR to accommodate the people. This no doubt will be extremely necessary, as much as the attractions, will bring to the fair many more people than have ever been seen in attendance before.

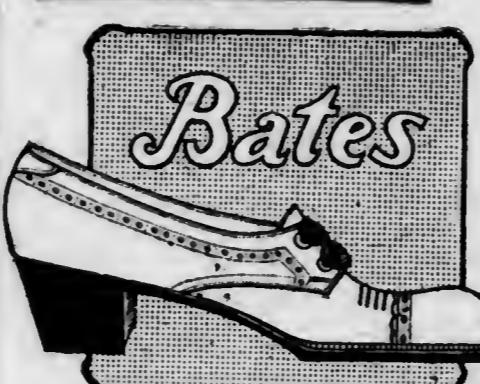

Every effort is being made to make this the BIGGEST success in the record of the Fair Association, and to give the people the most for their money.

ALL AROUND THE CORNER
NEXT TO COURT HOUSE

The Brown Memorial school closed Tuesday night, the most successful year's work, the school has ever had. In attendance, the number of boarding pupils reached the limit and the day pupils increased the number to almost the capacity of the school. The character of work done, was of the very highest, and those who have witnessed the closing exercises, and have examined the display of work done in the several departments as offered for inspection at the Langdon home on last Friday evening, are convinced of the thoroughness and excellence of the work, which the students of Brown Memorial are doing. Not only in a literary sense, but in other lines, as well, including sewing, and that very important art, of which so few have mastered, the parsons gathered from our girls and boys. And above his own patch. On Monday last all, let each school bring a good offering. It was resolved, at the convention last year that each school be asked to contribute \$1 in order that our county apportionment which has been decreased to only \$15 might be raised. Dear friends and fellow-workers, will it not be a great joy, to do our part in this glorious work? Watch for the program later.

The Democrats of Rockcastle met in mass convention last Saturday to select delegates to the State convention. The Hon. Champ Clark was the almost unanimous choice for president. Nat B. Sewell, of London, and William Sampson, of Middlesboro, were instructed for delegates to the Baltimore convention and Hon. Woodson May received the endorsement for State Central Committee.

Fred McLemore, a former resident of Mt. Vernon, but now of London, was here yesterday.

Preaching at the Baptist church Sunday, June 2nd, at 11 a. m. and 7:30 p. m. discourses practical and helpful. Sunday school at 10 a. m. Teachers meeting every Thursday evening at 7:30. Will take up the study of book of Revelation for next few months. Everyone welcome, glad to have you come.

T. C. DUKE, Pastor.

The exercises at the Graded school last evening, consisting of drills, marches and music was thoroughly enjoyed by the large crowd which more than taxed even the standing room of the chapel. The little tots performed and being well trained for the performance brought forth a hearty applause. It was a character of entertainment that always pleases. To-night is the close of the Graded school which has been a very successful year.

Why Have "Nerves?"

This is the reason why women have "nerves." When thoughts begin to grow cloudy and uncertain, impulses lag and the warnings of pain and distress are sent like flying messages throughout limbs and frame, straightway, nine times in ten, a woman will lay the cause of the trouble to some defect at the point where she first felt it. It is a headache, a backache, a sensation of irritability or twitching and uncontrollable nervousness, something must be wrong with the head or back, a woman naturally says, but all the time the real trouble very often centers in the womb. In nine cases out of ten the seat of the difficulty is here, and a woman should take rational treatment for its cure. The local disorder and inflammation of the delicate special organs of the sex should be treated steadily and systematically.

Dr. Pierce, during a long period of practice, found that a prescription made from medicinal extracts of native roots, without the use of alcohol, relieved over 90 per cent. of such cases. After using this remedy for many years in his private practice he put it up in form of Dr. Pierce's Favorite Prescription, that would make it easily procurable, and it can be had at any store where medicines are handled.

Mrs. Lila B. Hawkins, of Zions, Va., writes: "I had been failing in health for two years—most of the time was not able to attend to my household duties. Female weakness, I say, was the trouble. I was getting very bad and thought of giving up. I tried Dr. Pierce's medicine, I am well and strong again. I took only three bottles of 'Favorite Prescription' and used the 'Lotion Tablets.' I have nothing but praise for Dr. Pierce's wonderful medicines."

Dont Deny Yourself The Pleasure of Having Good Piano Music in Your Own Home

The piano is the greatest of all pleasure instruments for the home and it is no longer necessary to be an accomplished musician in order to play it.

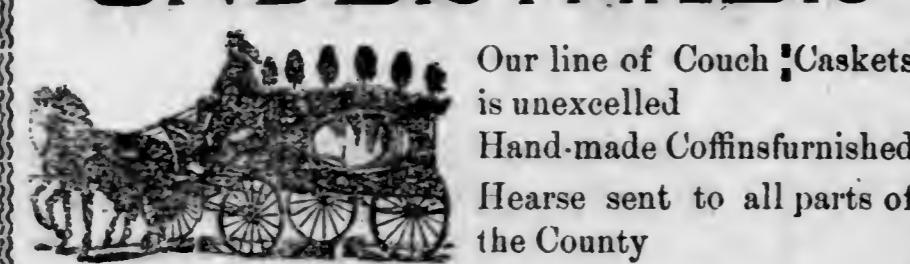

Human Ingenuity has made it possible for anyone to play a piano by means of perforated music rolls—thus eliminating years of tedious practice—and placing the responsibility of correct playing on the piano rather than on the pianist.

The AUTOPIANO

Has every device necessary to make the piano "human," but you will realize this only when you hear it played. That is why we want you to let us demonstrate The Autopiano. It's just like going to hear some great pianist play—only there is no admission charge.

Hanna's Green Seal "THE MADE-TO-WEAR PAINT"

Has stood the test of time and has been improved in quality with the passing years.

Many brands of paint are offered for sale and quite often careful scrutiny is not given the subject with reference to the quality of the paint to be used.

EXPERIENCE IS A GOOD TEACHER. TEST THE QUALITY.

It is a good idea to learn the composition of the paint you intend to use. There is a difference.

The printed formula appears on every package of Hanna's Green Seal Paint.

This is an evidence of good faith and attests the confidence the makers have in their product.
